About the 3rd Photo Nature International Contest 2019

Photo Nature International was established as a result of Photo Nature Brazil. For this project to be implemented by Associação Jauense de Ambiente e Cultura (AJAC), headquartered in the city of Jaú, State of São Paulo, Brazil. It was decided to maintain a category of nature and expand with two "Free" category (which in the international scope is called "Open") - both categories or sections received color photos or black and white. The organization of this competition sought to expand the sponsorship of Federation Internationale de L'Art Photographique (FIAP) and the recognition of the Photography Society of America (PSA) and the International Association of Arts Photographers (IAAP). This latter association, also, responsible for the web platform to receive and process the photos. We also count on the recognition and support of the Confederação Brasileira de Fotografia (CONFOTO).

The contest was open from the end of June 2019 and closed on September 15, 2019. The candidates were able to participate with up to 12 photos and were evaluated by a body of judges with international experience. 133 prizes and extra prizes were offered to Brazilians with the highest ranking. The peculiarity of this contest is that a participant can have at most one prize per section. This ensures the spraying and distribution of prizes among the participants.

We will have two events with designed projected images and due to the success of this first contest, we will have an exhibition with printed photos to guarantee the unrestricted access of the citizens jauenses in place of great public lik in Jaú Shopping Center.
